SJC updates and launch of Public Education forum on NJCU
Campus, in partnership with NJCU, HCCC and Ramapo College.

City Of Trees @ NJCU

Hello again, friends!

We hope you had the opportunity to register for the first film in our Fall Sustainability Film Series, [City Of Trees!](#)

If not, don't fret! There's still plenty of time before the event this Thursday at NJCU's main campus.

[Register for City Of Trees Screening at NJCU](#)

This is a great networking opportunity to meet like minded folks interested in sustainability issues both in and outside of Jersey City.

We're also excited to announce that [Paul S. Mankiewicz, Ph.D. Director of the Gaia Institute](#) in New York, will be giving a talk before the screening--you won't want to miss this discussion!

Pre-Screening Talk:

Green Infrastructure: Integrating Ecology, Energy, & Employment Opportunities

Paul S. Mankiewicz on his 12,000 sq.ft Linda Tool green roof in Red Hook

Getting there

NJCU's main campus is easily accessible by car, bike, and public transit. We encourage attendees to take advantage of the West Side Avenue Light Rail!

DIRECTIONS / PARKING / PUBLIC TRANSIT

We hope to see you there!
