

## Bringing the PRI Principles to Life: SASB as a Toolset

**Tuesday, June 27 at 9:00am PT/12:00pm ET**

The Principles for Responsible Investment now have nearly 1,700 signatories, from over 50 countries, with assets approaching US\$62 trillion. PRI signatories commit to incorporating environmental, social and governance (ESG) issues into investment analysis and decision-making.

To put principle into practice, investors must make concrete steps to integrate ESG issues into investment practice. The SASB standards can help PRI signatories fulfill their PRI commitments and adhere to the values that undergird the PRI principles.

**Thank you for registering. You will receive a confirmation email from GoToWebinar shortly.**

**See you at the webinar!**

Join SASB's Janine Guillot, PRI's Mandy Kirby, Nordea's Hetal Damani, and Ontario Teachers' Pension Plan's Deborah Ng to learn:

- The ways in which PRI principles support the long-term interests of its signatories, financial markets, and society as a whole
- How the SASB framework helps PRI signatories understand financially material ESG issues and incorporate ESG into investment processes
- What steps investors can take to move the markets in a more sustainable direction

The webinar recording and slides will be emailed to all registrants after the webinar concludes. Email [info@sasb.org](mailto:info@sasb.org) with questions.
